My name's Adam Wolkowycki

Address	somewhere
Phone	call me maybe?
E-mail	psor2.0@gmail.com
Date of birth	1999-07-01
Github	https://github.com/PsorTheDoctor

Education

2021-09 – 2022-01
University of Southern Denmark (exchange studies)

2018-10 – 2022-02
Bialystok University of Technology, BE in Automatic Control and Robotics

Achievements of mine (chronological)

- **2017, 2019:** Title of Young Scientist at Regional *E(x)plory* Competition (twice)
- **2018:** Third place and university admission card won at the *EL-ROBO-MECH* contest
- **2021:** Final at *KOKOS* Students' Construction Contest
- **2021-2022:** Grant at the *Diamonds' Explorers* foundation

Experience I did

2021-09 – 2022-10
Nordbo Robotics, Odense, Denmark
Student worker, programming utilities in Python

2020-10 – 2021-03
Standard Motor Products, Bialystok, Poland
Intern, cleaning and unassembling the molding folds, operating an EDM machine

2018-05 – 2018-12
Software Development Academy, Bialystok, Poland
Participant of *Java from Scratch* course

Skills I think I have

- Android programming in Java
- Data science in Python (*tensorflow, numpy, scikit-learn*)
- Artificial intelligence (neural networks, unsupervised and reinforcement learning)
- Computer Vision with OpenCV
- Robotics (manipulators, autonomous mobile robots, controllers)
- Physics simulations using *pybullet* engine
- Familiar with Raspberry Pi and Linux

Languages I speak

Polish, English

Hobbies I like

Robotics, programming, artificial intelligence, cognitive science, psychology
